

The Queen's  
Five

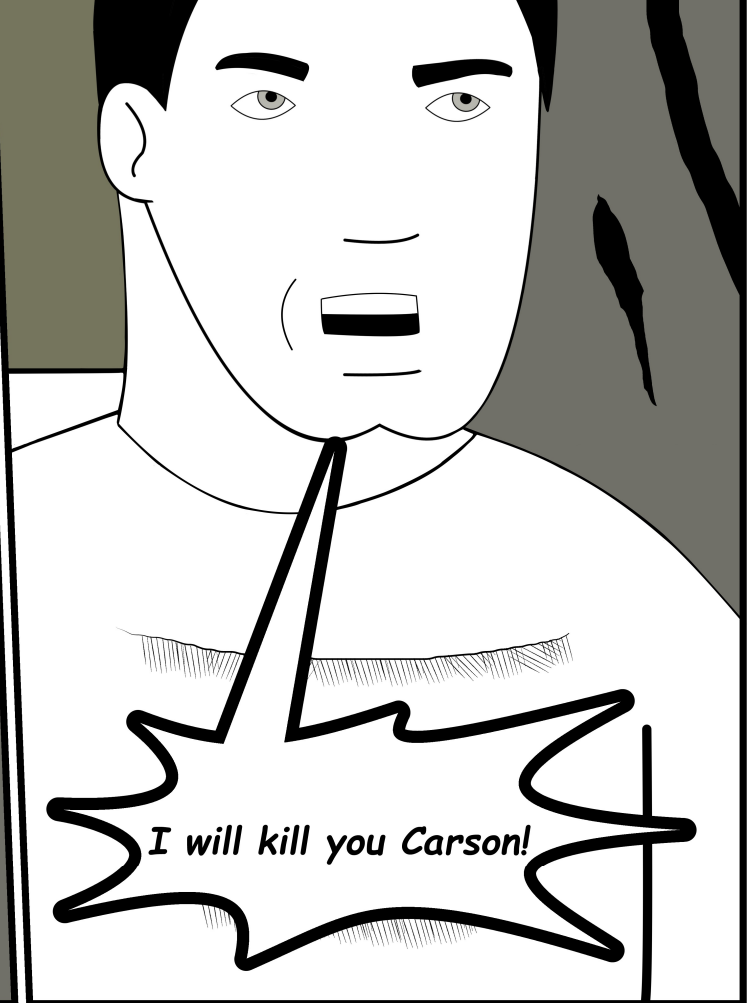

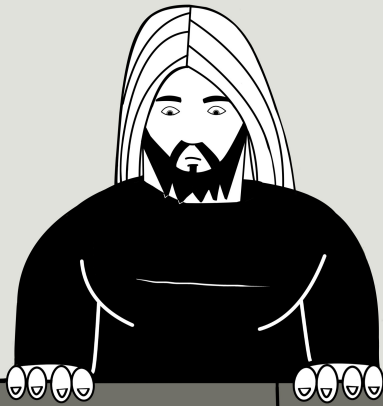

High Horse

Marcus has lost his muse...

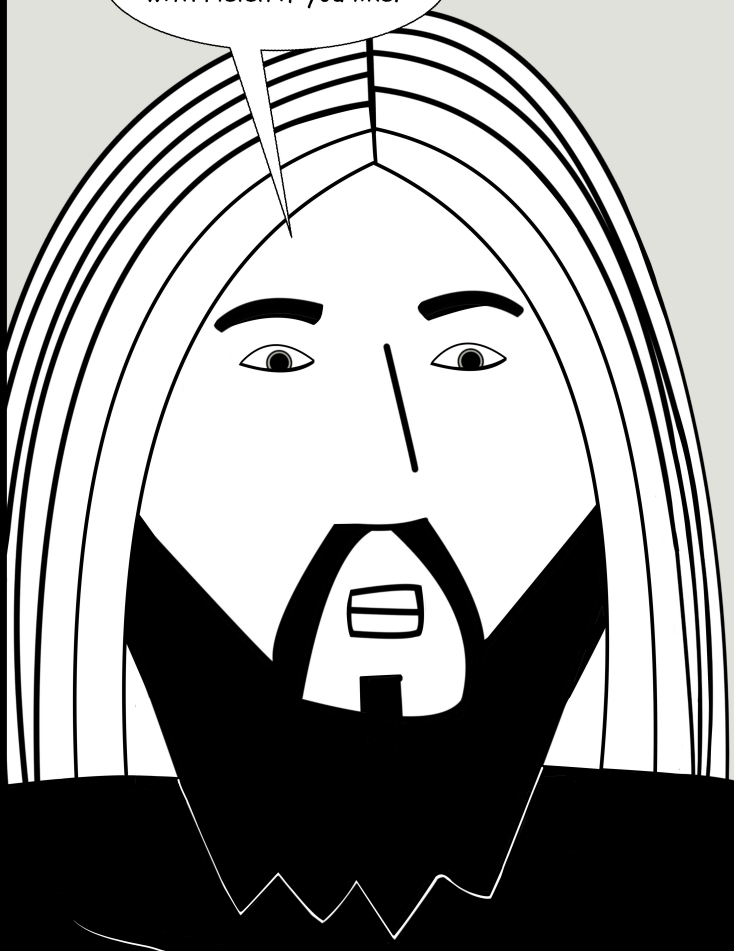

What have I done?

*I will kill you Carson!*

I will reunite you with Helen if you like.

My king...

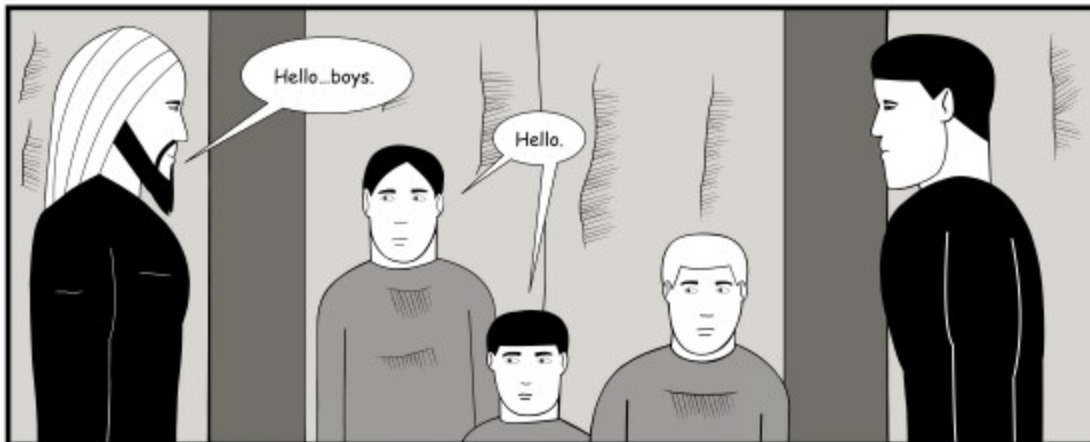

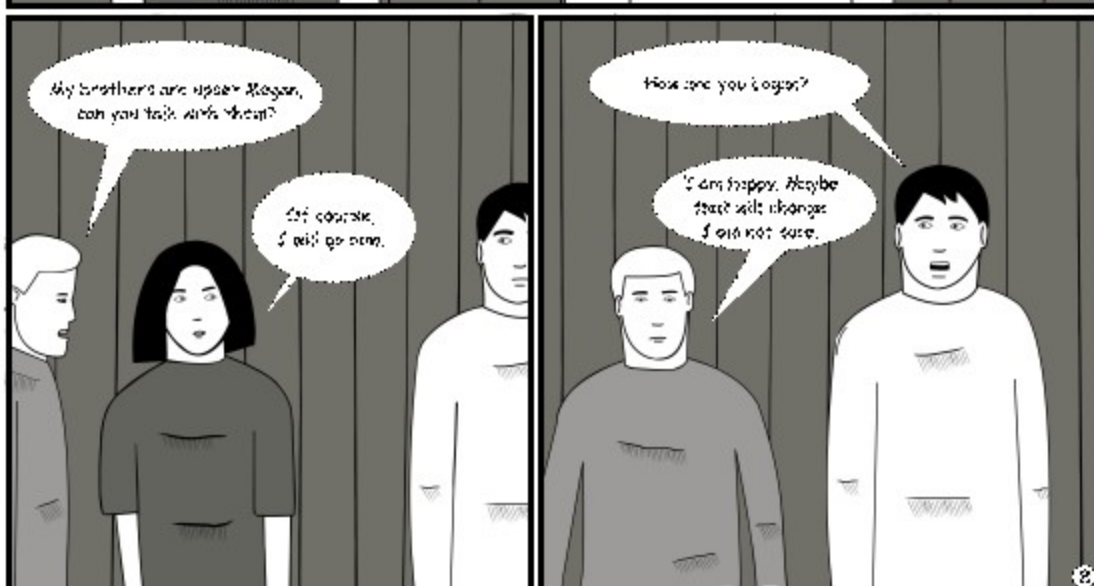

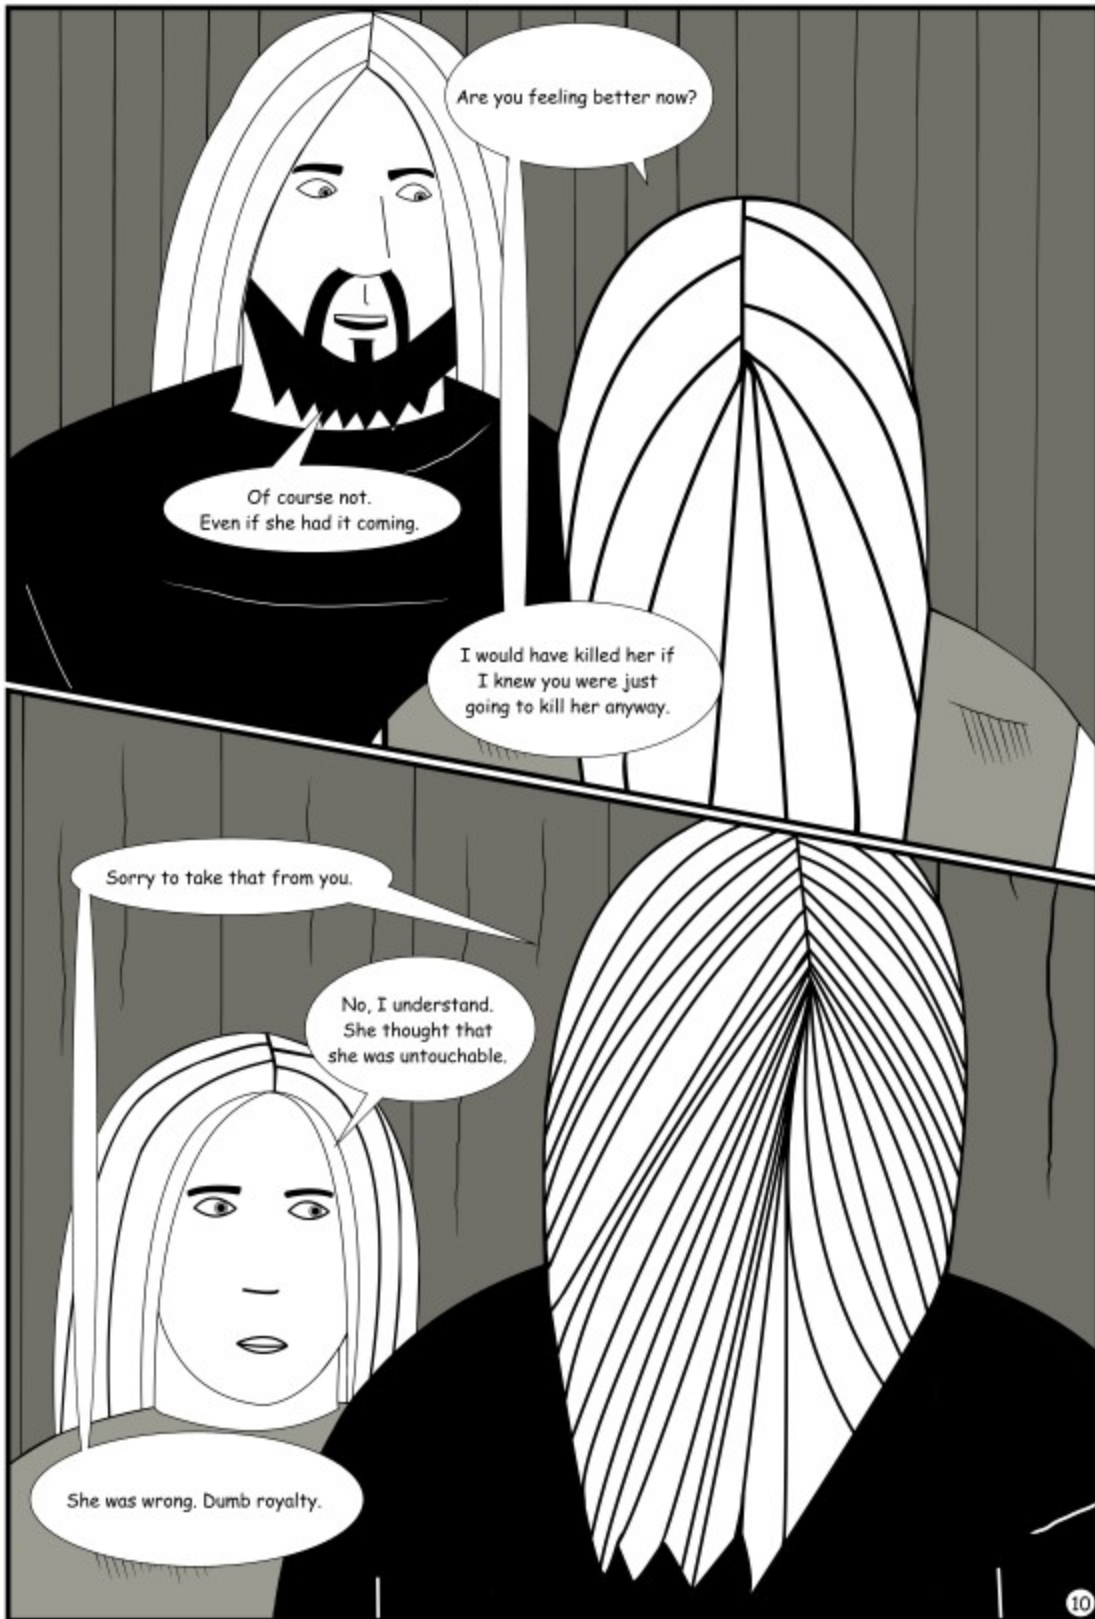

Are you feeling better now?

Of course not.  
Even if she had it coming.

I would have killed her if  
I knew you were just  
going to kill her anyway.

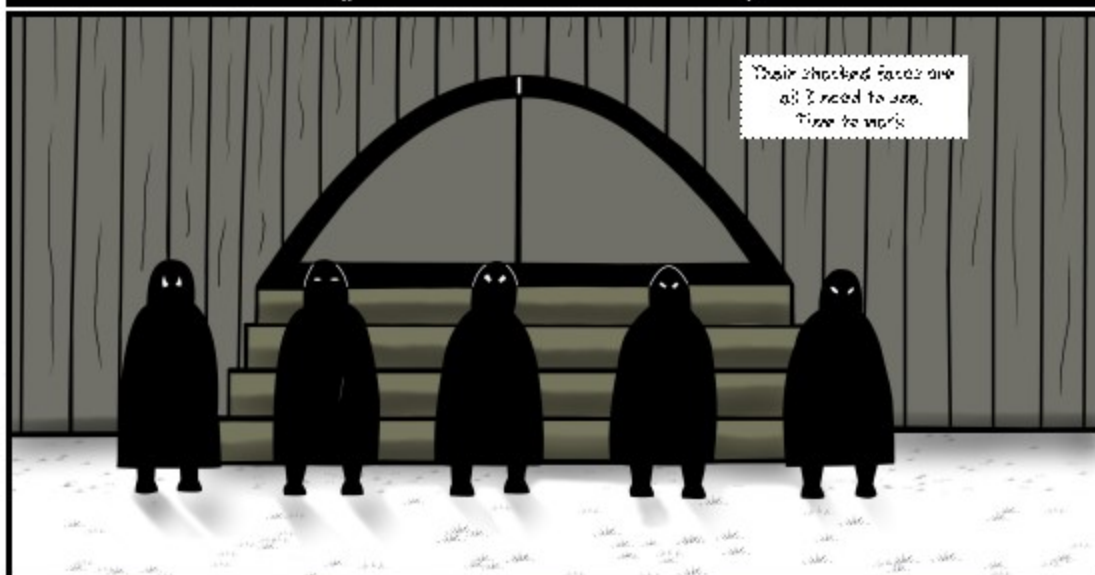

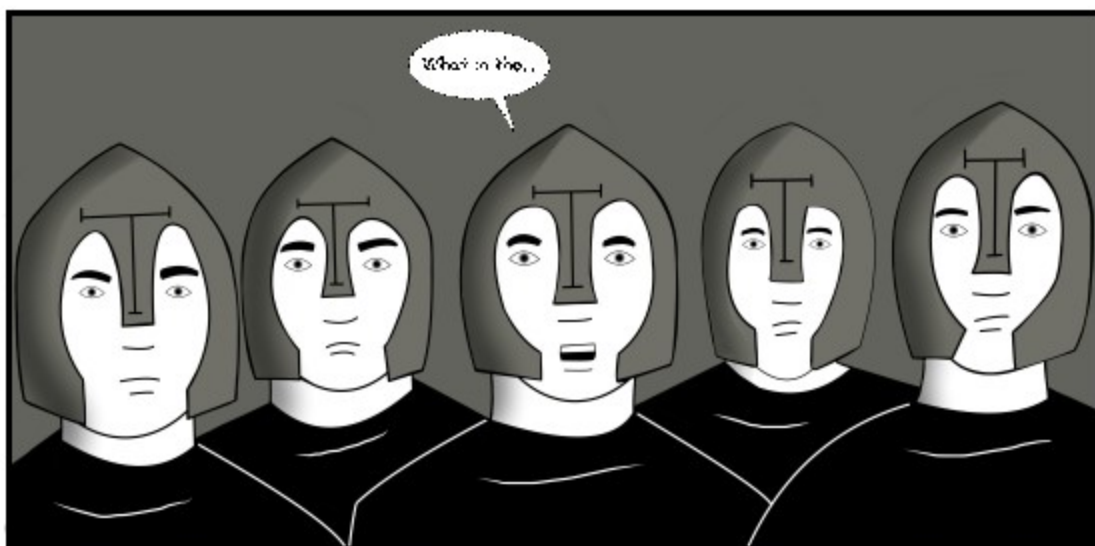

Sorry to take that from you.

No, I understand.  
She thought that  
she was untouchable.

She was wrong. Dumb royalty.

Strip took that damn. I hope that it  
is good workmanship. Feels like it is solid.  
I can move in it, so I can kill so it.

If you can, when they  
come, have a house.

Sounds like a good time.

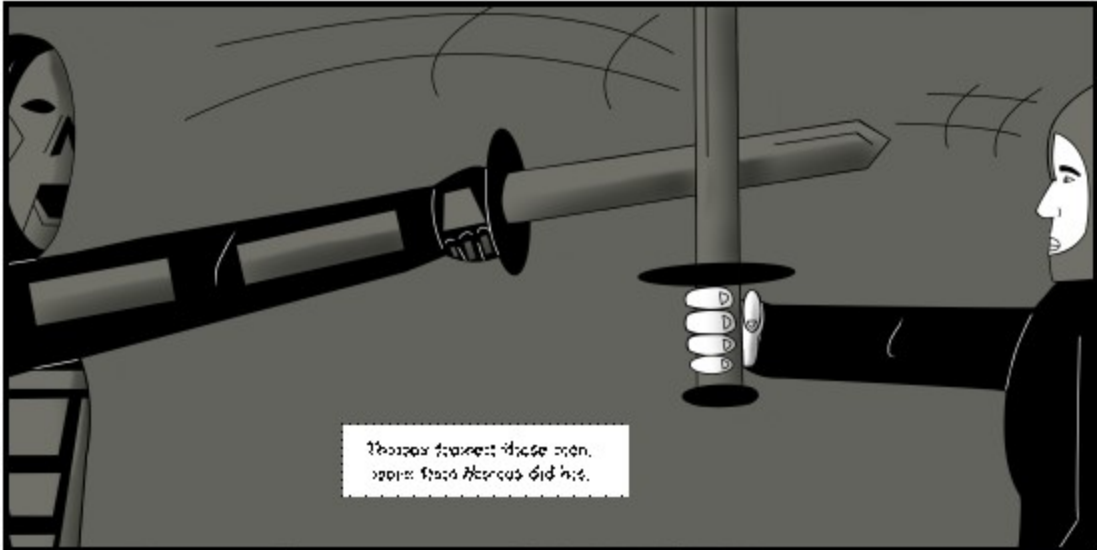

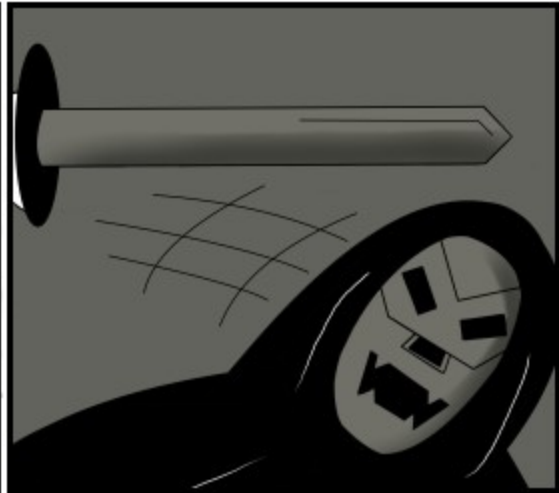

These men are trained,  
take it seriously.

No worries, we  
know what to do.

I know I will kill  
more men than you.

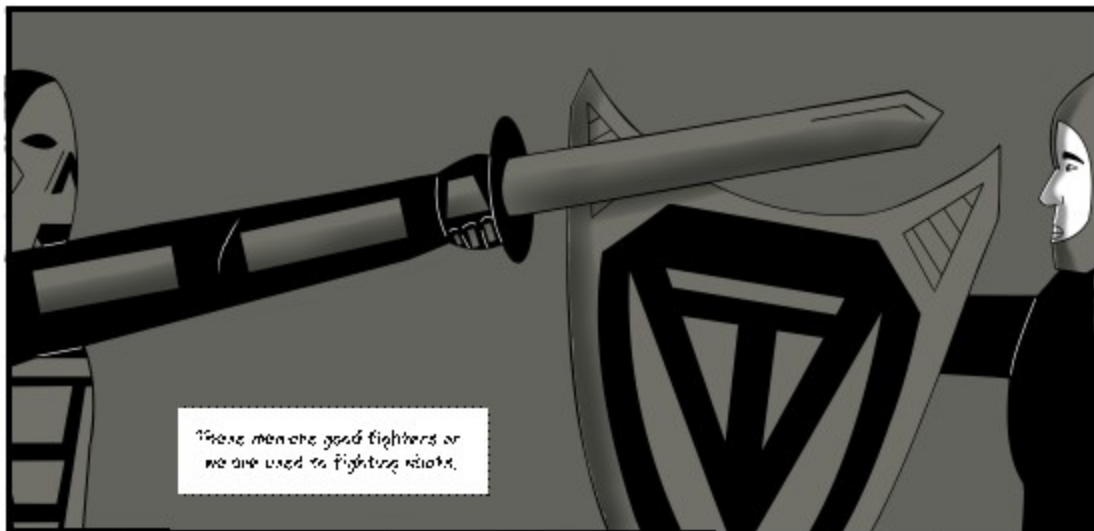

Thomas feared these men were from Abscus did he.

I am afraid if Hugo and the others were out here they would be killed.

What is wrong with me. I am starting to care about Hugo?

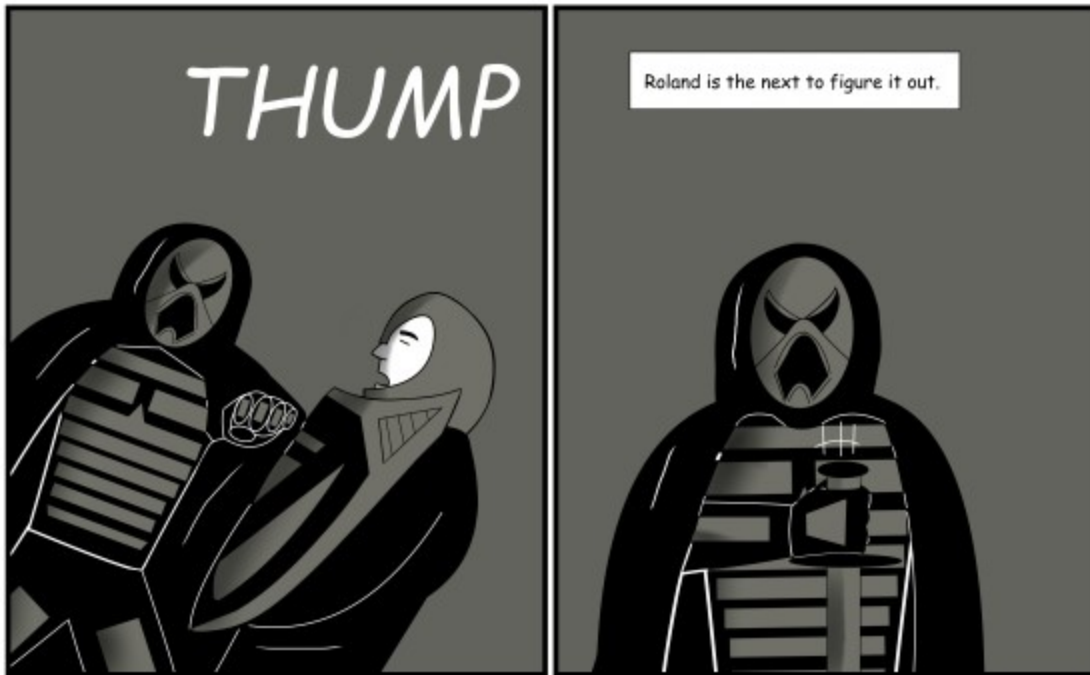

These men are good fighters or  
we are used to fighting robots.

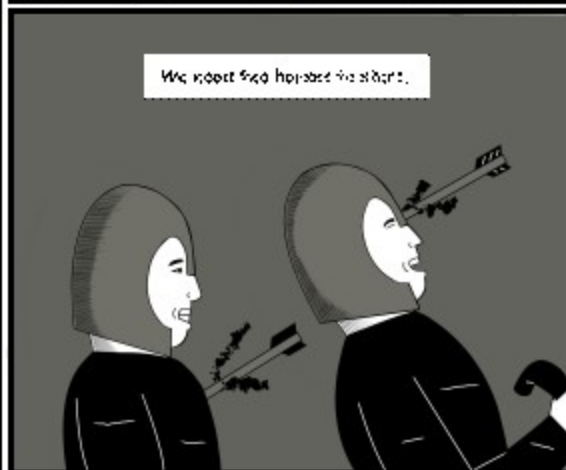

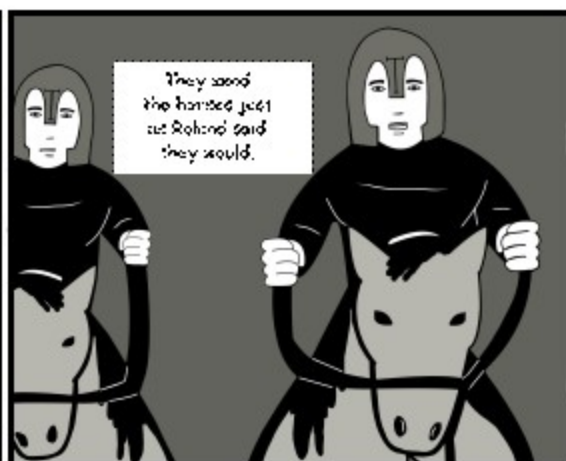

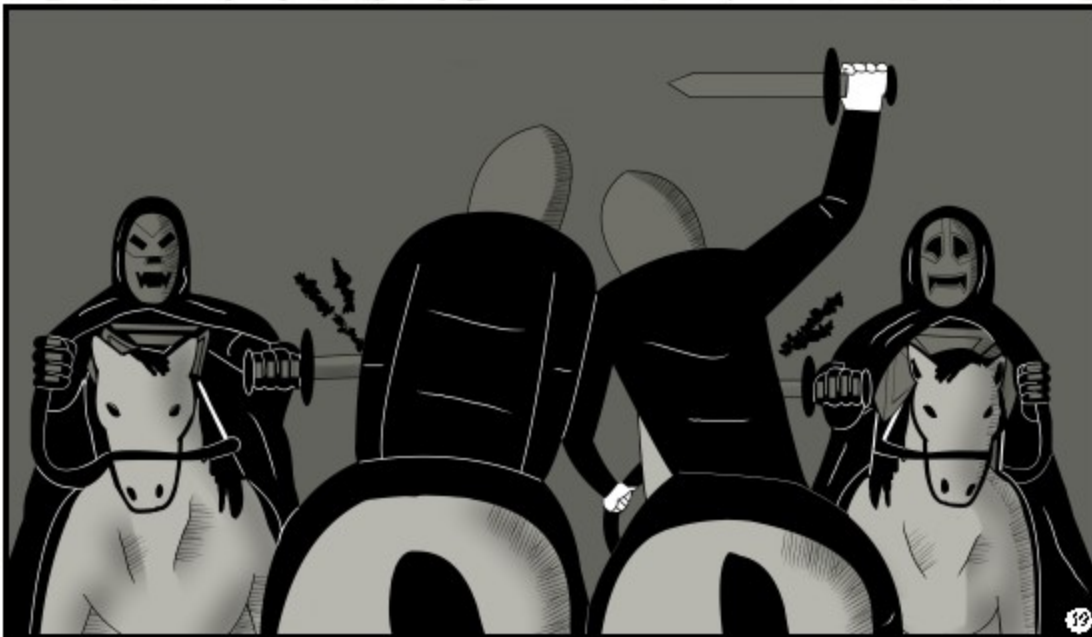

Leave it to Edward. He just knows  
them near. Spindel and all.

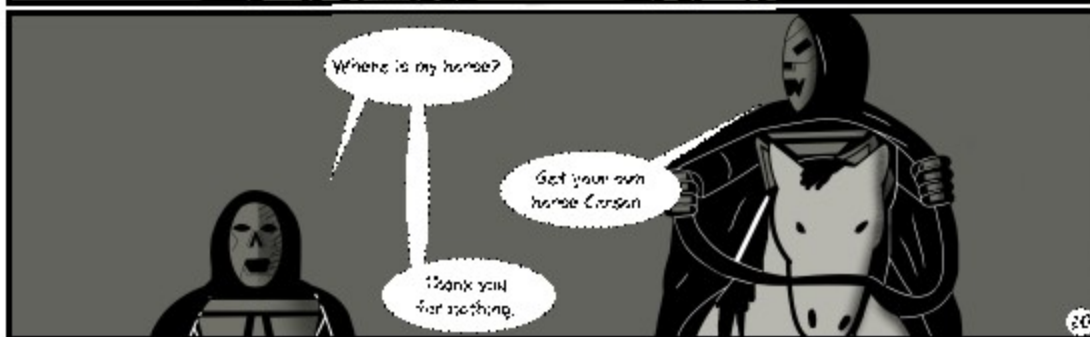

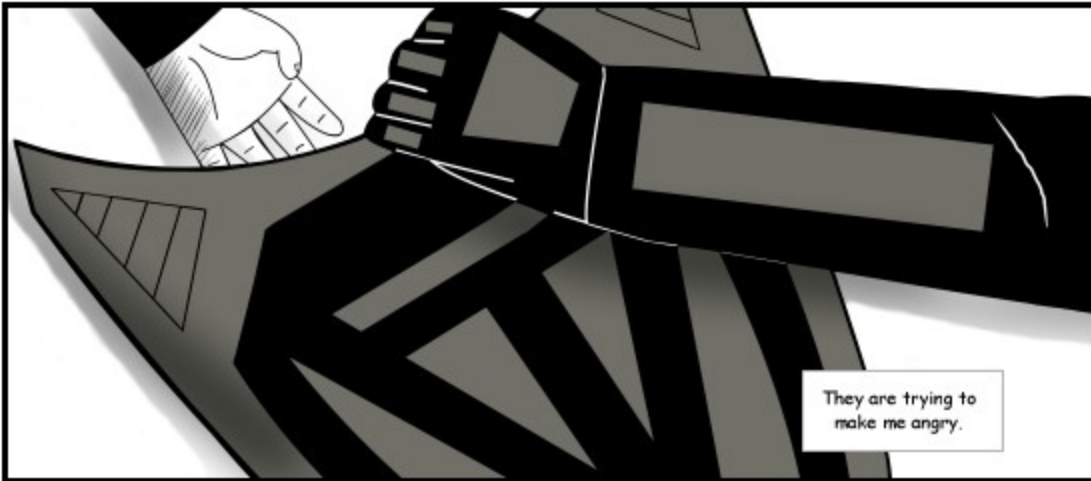

Alright he is smart. Not much  
of a talker.

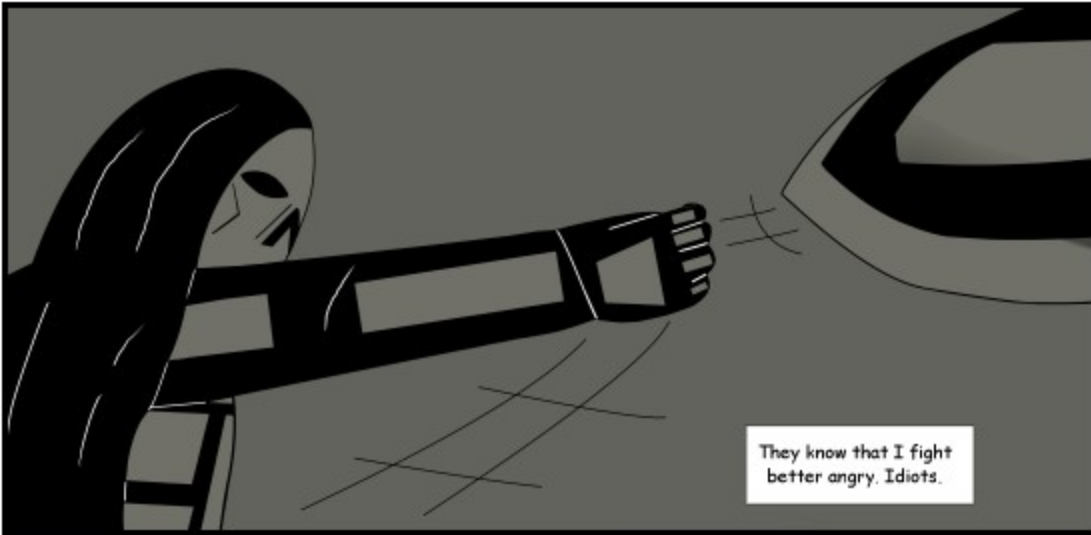

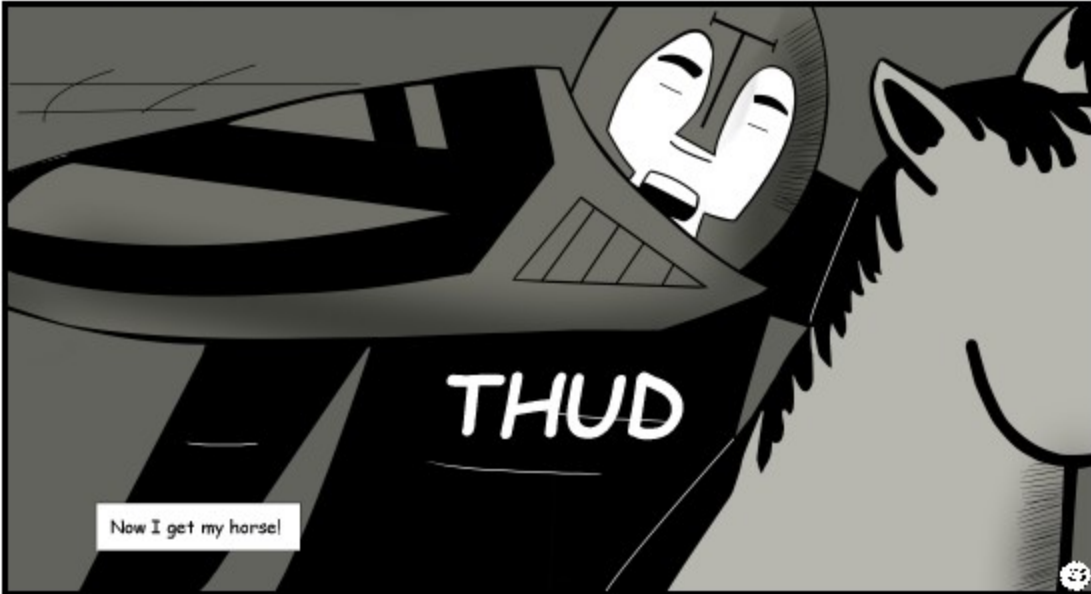

They are trying to  
make me angry.

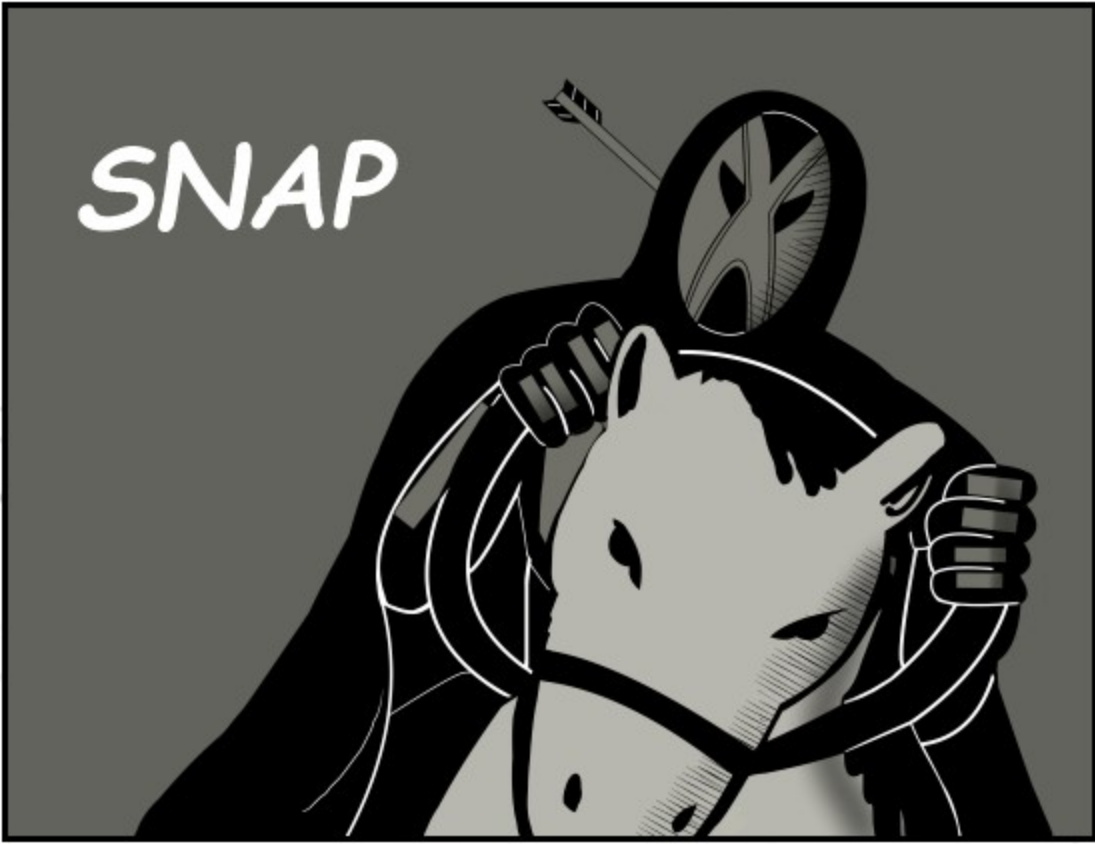

They know that I fight  
better angry. Idiots.

Now I get my horse!
